Figure 1.1
Overview of the Dialectical Structure of Marx's Theories
Of Human Social Evolution as a Whole and, Within That, of the Evolution of Capitalist Society,
Presented Via the Helical Trajectory "State-Space" Model

GENERAL  SOCIAL EVOLUTION  EVOLUTION OF THE

Level of the Social Forces of Production

Value-Mass of Capital
\( M = c + v \)

Marxian Rate of Profit of Capital
\( \frac{\dd c}{\dd t} \)

Dispersion of Ownership of Capital
\( \frac{p(M)}{M} \)
